

ALEXANDRU

MAT Tutor

Education

University of Oxford: Mathematics and Computer Science (2017 – present)
Average 74%

High School - Romanian Baccalaureate: 10/10 in Mathematics; 9.90/10 in Computer Science;
9.60/10 in Romanian Language and Literature

Teaching Experience

I have been a private tutor for a number of years, and since starting my degree in Oxford, I have tutored many students sitting the MAT, STEP, and A-level exams. Last year I helped six different students with their applications to Oxford and Cambridge University, supporting them with personal statements, admissions tests, and interview preparation. Additionally, I have also helped prepare students for the National and International Math Olympiads in Romania.

Reviews

“Really good experience with Alex, he makes figuring out complex problems simple by use of tricks and logical thinking.” (MAT student)

“Alexandru is very nice and very helpful. I had him for the first time and he was very respectful, he was teaching me tricks and told me my mistakes whenever I'd done something wrong. Also, whenever I ask a question he always stops and answers my question, and whenever I need help, he always helps me.” (Oxbridge Interview student)

Tuition Approach

Solving mathematics problems has always given me great satisfaction, and I'd like to empower students to become great problem-solvers themselves. My role will not be just to 'spoon-feed' facts and solutions to my students, delivering content for long periods; I believe in keeping tutorials interactive, and guiding them to success with various hints along the way. I will encourage my students to think outside the box; to consider alternative methods to tackle problems – this will give them greater familiarity with mathematics as a network of knowledge.
