Reviews

“Amazing. The amount of history and creating a timeline and perspective in order to learn the syllabus, although may seem like common sense, is just unreal thanks to you.”

- Andreas (A-Level student)

Tuition Approach

My approach to tutoring replicates the Oxford and Cambridge model of 1-2 hour sessions focusing on discussing essays written by students. I work through chapters with students to cement understanding and test this through essays.

I like to pose questions to allow students to demonstrate their understanding of topics covered in addition to testing how the students argue based on the information they learn. It's a challenging format but one that builds students' confidence and reasoning ability.

On top of this, I seek to focus on big picture thinking and create timelines that enable students to locate each discussion and essay in its wider context. This allows students to make connections between themes and bring together different perspectives.
