

SOPHIE

*Chemistry and Biology Tutor*

---

### Education

University of Oxford: MChem Chemistry (2019-2023)

A-levels: Extended Project Qualification (A\*), Maths (A\*), Chemistry (A\*), Biology (A\*), Physics (A)

GCSEs: Biology (A\*), Chemistry (A\*), Physics (A\*), Maths (8), Further Maths (A\*), German (A\*), French (A\*), Geography (A\*), History (A\*), Religious Studies (A\*), English Language (9), English Literature (8)

---

### Teaching Experience

I have tutored a number of students online across mathematics and the sciences, and have quickly built up repeat students, receiving excellent feedback. I am enthusiastic about learning and very patient.

---

### Testimonials

“Sophie is so helpful, she covers every topic that I’m struggling in, explains in detail and always makes sure I understand before moving on! Sophie has helped me improve in my weakest areas. Highly recommend!!!” (GCSE science and maths student)

“Sophie is so lovely and very helpful when it comes to physics! I have had one lesson and will definitely be booking more, she is clearly very knowledgeable and I very much appreciate the help. The flexibility is great too, I can cover all the topics I am struggling with and it helps support my learning at school!” (A-level Physics student)

“Sophie has been a great help in my first tutor session, going in to detail and asking me questions to make sure that I understand before she moves on to the next part, I would really recommend her to anyone struggling or needs a bit of extra support! I can't wait for my next session.” (AS Biology Student)

## Tuition Approach

Subjects: GCSE Science and Maths  
A-level Biology and Chemistry

I am a flexible, enthusiastic tutor who ensures the lessons best suit the student. We can either follow a plan to cover the syllabus or go over particular problem areas. Either way it is my priority to help the student get the most out of our time.

To allow me to prepare for the lesson, I ask students to let me know in advance any particular topics or questions they would like to cover, enabling the lessons to be as useful as possible for the student.

Given that schools are currently closed, I am happy to either work with the student on content their school has set, or alternatively move onto their next year's content to give them a head start.

Having recently been in secondary education, I know the importance of both understanding concepts and exam technique. As I've experienced, exams can be daunting, but with the right preparation the student can reach their potential.
