Reviews

“Georgia’s tutoring helped me to feel confident for my Oxford entrance exam” (Oxford applicant)

“Georgia is very approachable and always makes her lessons fun and engaging.” (A Level student)

Tuition Approach

I would mostly tailor my lesson to what the student wanted, as I think that would be most beneficial. Perhaps they would like to learn a bit of the language before they go, or be recommended some supplementary reading for it.

For this particular tutoring I would focus very much on mock interview practise. This would involve a 20-25-minute mock interview including a text to analyse, and questions about the student’s personal statement. Then the next half an hour would be focussed on reviewing what went well in the interview, and what could be improved.

My main objective is to make the lessons engaging and useful for the student, and to make them feel confident when they walk into the interview room.
