

LUKE

Economics Tutor

Education

University of Cambridge: BA (Hons) Economics 2.1 (67.8) (2010 – 2013)

A Levels: Maths (A*) Further Maths (A*), History (A*), Economics (A*),
Critical Thinking (A*)

Teaching Experience

I have over 12 years of tuition experience, five of which have been full time. I have half a year's experience as Head of Economics and have run a small tuition company for three years. I specialise in Maths, Economics and History, but have tutored a wide array of subjects up to an undergraduate standard. I have built very strong relationships with my clients and tutored to a very high standard.

I have a great deal of experience with the Oxbridge admissions process, in particular regarding Economics related subjects, in both a schools and tuition setting.

Testimonials

“Luke helped me throughout the year with my P.S., Cam application and my niggles in fm, maths & econ. Not only did I get the A* in all subjects (up from A's in fm & ec) but I also got in. I can't thank him enough for the help throughout the year with the interview prep and with the subjects. He was always very thorough in his teaching style and patient no matter how many queries I had. I definitely recommend him as a tutor, and I don't see how we could've used our time more efficiently. So grateful mate!” - Cambridge Admissions Tuition

“I honestly couldn't ask for a better tutor than Luke. He was very patient with me and helped me to think of efficient ways to approach very abstract mathematical problems, some of which have become a lot clearer due to his help. Whilst also being a down-to-earth person, Luke is also extremely dedicated to giving the best help that he possibly can.” - MAT Tuition

“Luke’s such an amazing tutor!!!! He was very helpful when we had practice interviews and his preparation made me feel extremely comfortable in my interview and a few of the questions he’d asked me about my personal statement came up! I can’t thank him enough for helping me get into Cambridge.” - Cambridge Admissions Tuition

“From coming to Luke with a C at AS Economics and ending up with an A* (including full marks in two papers; 100/100 UMS at A2) is testament to Luke’s brilliant tutoring ability. Luke makes you go deeper into the subject so that you fully understand the concepts to a much greater level, which leads to very dramatic improvements in grades. As well as this, Luke will help you fully nail the all important exam technique and essay structure (which improved drastically) for your exam. I could not recommend Luke enough.” – Economics Tuition

Tuition Approach

I believe that all tutees should be provided with the tools and skills to study effectively, in order to give them a competitive edge and solid foundation for years to come.

My aim is to inspire interest and clarify understanding of the subject at hand. I take the focus from teaching to learning, and from memorising facts to understanding.

When tutoring for a subject it is important to ensure that students can present their knowledge in the correct form for the specific exam board.

When preparing students for Oxbridge Entrance and Personal Statements I believe that demonstrating passion for one's subject is key. I focus on depth of understanding and help candidates find unique areas of interest to make them stand out.

When tutoring at the university level it is key to teach to the exact requirements of the student and the course, no two are exactly alike. I do this by reviewing all of the student's relevant lecture slides and problem questions.
